Industry Sector:	NAICS 4931
Business:	Provides distribution & logistical services to manufacturing facilities
Facility Employees:	100-499
Accomplishments:	Reduced total solid waste Reduced energy use
Commitments:	Reduce discharges to water Reduce accidental releases Reduce accidental releases Reduce discharges to water
Address:	13701 Mines Road Laredo, Texas 78045-7847
Web site:	www.ryder.com

Ryder Integrated Logistics, Inc., Laredo Goods Distribution Center has demonstrated its commitment to environmental performance through reduced total solid waste, and reduced energy use. Since 1999, the facility has:

- **Reduced total solid waste** from packaging 76% by increased use of recyclable materials.
- **Reduced energy use** 17% through better energy management practices.

Future Commitments

Ryder Integrated Logistics, Inc., Laredo Goods Distribution Center is working to reduce discharges to water, and reduced accidental releases. By 2004, the facility will:

- **Reduce discharges to water** of sulfuric acid 100% through employee training on spill control and maintenance of batteries, and through new operations to refill batteries offsite.
- **Reduce accidental releases** of oil from forklifts from two per year to zero through increased employee awareness, and subcontracting
- **Reduce accidental releases** of oil from truck maintenance from two per year to zero through oversight and enforcement by sub-contractors.
- **Reduce discharges to water** of floor cleaner 100% by recycling 100% of waste water stream.

COMMUNITY OUTREACH

The facility currently has a program in place to respond to concerns from the public via phone, email, or mail. The facility communicates with its employees through a facility newsletter.

External concerns are communicated through the local newspaper or the web site. The Annual Performance Report will be made available online at the facility's web site at
